## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kurt Eaton on 10/27/04.

The application has been amended as follows:

In claim 1, line 10; after the word "groups" before the word "said" delete the word "of" and insert the word --in--.

### *Allowable Subject Matter*

2. **Claims 1-32** are allowed.

3. The following is an examiner's statement of reasons for allowance: None of the references used either singularly or in combination teach or fairly suggest a liquid crystal display device comprising a line memory for dividing a data for at least one input line from the exterior therefor into a plurality of groups to store the divided data therein and for outputting the data at a desired unit from each of the groups and further including a driving circuit and a timing controller, wherein the timing controller is connected to the line memory and the driving circuit for receiving a data clock inputted from the exterior thereof to alternately output the

data from the plurality of groups in the line memory to the driving circuit every period of the data clock in response to a time corresponding to the number of groups. Specifically Shin (U.S. Patent No. 6,323,836) teaches the line memory; the driving circuit, and the timing controller however fails to teach that the output from the timing controller is outputted alternately. Nakano et al. (U.S. Patent No. 6,229,513) teaches the line memory, the driving circuit, and the timing controller, however as with Shin, fails to teach the alternating output as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
